EDUCATION	PRESIDENT UNIVERSITY , Candidate for <i>Sarjana Komputer (S.Kom.)</i> . GPA 3.82 / 4.00, Sep 2024 - Present Honors: Jababeka Scholarship Activities: President University Major Association of Informatics	Aug 2024 - Aug 2027 Oct 2025
WORK EXPERIENCE	PT. OMRON MANUFACTURING INDONESIA , Cikarang, Bekasi <i>IT Developer Internship</i> , Quality Assurance DMS Developed internal web applications using CodeIgniter under MVC architecture and managed relational databases via SQL Server and SSMS to ensure data integrity. Conducted functional and performance testing to optimize document workflows, collaborated to resolve technical issues, and maintained detailed system documentation to ensure high overall quality.	May 2026 - Present.
	PT Bank Mandiri Tbk x Rakamin Academy , Cikarang, Bekasi <i>Project-Based Intern — Mobile Application Developer</i> , Mobile Application Development Developed a scalable mobile application in a simulated banking environment, handling end-to-end tasks from UI/UX design to functional integration while adhering strictly to fintech industry standards, focusing on data security, structured state management, and seamless API integration.	May 2026 - Jun 2026
	Diskominfosantik , Cikarang Pusat, Bekasi <i>Software Developer Internship</i> , Programmer Developed a Digital Selection & Training Management System for Disnaker using React (Vite), Tailwind CSS, and Express.js. Engineered app routing, structural backend architectures following MVC principles for job management, and admin dashboards with SVG data visualizations to transform static prototypes into a functional, scalable full-stack application for public services.	Nov 2025 - Mar 2026
	PT. Schon Craft Indonesia , Cikarang, Bekasi <i>Full Stack Developer</i> , Web developer Architected and developed a professional web platform using React, Vite, and Tailwind CSS, successfully improving site performance, page load speed, and scalability while ensuring a modern, responsive user experience. Designed high-fidelity UI/UX prototypes and components using Figma to align with the brand's handcrafted product identity.	Nov 2025 - Jan 2026
	PUMA Informatics , Cikarang, Bekasi <i>Project Manager</i> , Temu Alumni Organized and led the Temu Alumni event as Project Manager, overseeing concept development, coordination with alumni, timeline execution, and team supervision to strengthen networking between alumni and current students, providing valuable insights, inspiration, and future collaboration opportunities.	Dec 2024 - Jan 2025
PROJECTS	NLP Hybrid Chatbot Summarization RAG , AI Developer, UI/UX Developed an intelligent chatbot system serving as an advanced conversational assistant by integrating Retrieval-Augmented Generation (RAG) with automatic text summarization for efficient PDF document processing and automated information retrieval.	Jan 2026 - Feb 2026
	AI Roadmap Adaptive E-Learning , UI/UX, Backend Developer Designed an AI-driven educational platform providing personalized learning paths tailored to individual user needs through adaptive backend algorithms.	Nov 2025 - Nov 2025
	Meet and Fight (Mobile Application) , Front End Developer Developed a cross-platform mobile application using Flutter as a final project for Wireless Mobile Programming. Focused on building a responsive user interface and implementing modern mobile functionalities.	Dec 2025 - Dec 2025
	Student Management System , Full Stack Developer Created a desktop application for structured student data management (CRUD) utilizing Object-Oriented Programming (OOP) principles to ensure relational data integrity, secure data handling, and efficient database operations.	Jan 2025 - Mar 2025
	Level Up , AI Developer, UI/UX Adaptive digital education platform that transforms traditional curricula into an interactive video-game structure using Next.js (React 19) and Tailwind CSS, integrated with Appwrite	Jan 2026 - May 2026

	Cloud as the BaaS backend. Developed an automated Onboarding Diagnostic Quiz to dynamically map user interests and engineered a secure system progression lock.	
	Real-time Trash Detection , Deep Learning Engineer	Oct 2025 - Oct 2025
	Engineered a real-time waste classification system using YOLOv11 to support automated waste management initiatives through computer vision and high-accuracy object recognition.	
	AI-Powered Smart Factory: Autonomous Shape Sorting , AI & IoT Developer	Feb 2026 - Apr 2026
	Engineered an autonomous industrial sorting system using YOLOv8 for real-time object classification, integrating ESP32 microcontrollers with a React.js dashboard via Serial (UART) and WebSockets for live data tracking.	
	Design Anything , Full Stack Developer	Dec 2025 - Dec 2025
	Built a full-stack image editing platform integrating AI-based features for enhanced user creativity, utilizing a Microservices Architecture to ensure system stability and independent service scaling.	

SKILLS & CERTIFICATES	Skills:	Software Development.
	Certificates:	Spec-Driven Development dengan Kiro, (Dicoding Indonesia), Membangun Sistem Machine Learning, (Dicoding Indonesia), AI-Enabled Applications for Customer Service, (IBM), Make Agentic AI Work for You, (IBM), Belajar Dasar Cloud dan Gen AI di AWS, (Dicoding Indonesia), Logic Test Samsung Innovation Campus Batch 6, (Hacktiv8 Indonesia), UKBI, (Kemendikbudristek) Score: Sangat Unggul (683), Belajar Fundamental Deep Learning, (Dicoding Academy), Retrieval-Augmented Generation for Enhanced AI Outputs, (IBM), Generative AI Essentials: Using LLMs to Work with Data, (IBM), Data Fundamentals, (IBM), Artificial Intelligence Fundamentals, (IBM), Belajar Dasar AI, (Dicoding Indonesia), Prompt Engineering untuk Software Developer, (Dicoding Indonesia), Penerapan Data Science dengan Microsoft Fabric, (Dicoding Indonesia), Membangun Aplikasi Gen AI dengan Microsoft Azure, (Dicoding Indonesia), Memulai Pemrograman dengan Python, (Dicoding Indonesia), Belajar Machine Learning Pemula, (Dicoding Indonesia), Google Agile Essentials, (Google), Google Business Intelligence, (Google), Google AI, (Google), Foundations of Agile Project Management, (Google).

LANGUAGE PROFICIENCIES	English (Fluent); Indonesia (Native)
------------------------	--------------------------------------

PERSONAL	Informatics student at President University with a concentration in Artificial Intelligence (GPA 3.82/4.00). Experienced Software Developer Intern with a proven track record of managing relational databases using SQL Server and SSMS, and developing scalable full-stack web applications adhering to MVC Architecture (utilizing CodeIgniter and Laravel). Highly proficient in programming languages and frameworks including Python, JavaScript, Java, C++, PHP, SQL, Next.js, React, Tailwind CSS, and Flutter. Technical project experience includes engineering advanced AI applications, specifically conversational assistants and RAG-based NLP systems, with foundational knowledge in cloud and data platforms like Microsoft Azure and Microsoft Fabric. Demonstrates a strong capability to quickly adapt to other tools within the Microsoft ecosystem, such as Power Automate, Power BI. Also serves as Vice Head of HRD at PUMA Informatics, demonstrating exceptional detail-oriented project management, teamwork, and communication skills.
